LinkedIn: www.linkedin.com/in/abdulrhman-khaleliah

Portofolio: <https://abdulrhman22kh.github.io/Portofolio/>

Address: Deir Algusun - Tulkarm- West bank – Palestine

Profile Summary:

Computer Systems Engineering graduate with hands-on experience building real-world projects using modern tools such as Flutter, React and Node.js supported by AI-assisted development. Quick to learn, highly adaptable, and passionate about turning ideas into functional solutions. Open to entry-level roles in tech, support, or remote coordination, with a strong focus on continuous improvement and practical learning.

Education and Courses :

Bachelor of Computer Systems Engineering (CSE)

Palestine Technical University – Kadoorie | 2019 – 2024

GPA: 73.6 (good)

Scientific Stream – Secondary School

Deir Al-Ghusoun Secondary School | 2019

Rate: 93.3 (Excellent)

Dispatching Course – Completed in February 2024

Self-learning in programming and web development using AI tools (e.g., ChatGPT, GitHub Copilot) and YouTube channels

Technical Skills:

- **Programming** : Basic C++, Java, PHP
- **Web** : HTML, CSS, JavaScript, Bootstrap
- **Concepts** : OOP, Algorithms, Database Fundamentals
- **Tools** : Git, Microsoft Office, Internet Technologies
- **AI Tools** : Build complete apps and Websites with AI-assisted workflows
- **Other** : Dispatching in the logistics/truck industry

Experience:

Remote Dispatcher – Cheetah Logistics (USA) | Dec 2023 – Aug 2024

- Coordinated schedules and communications with truck drivers in the US
- Optimized delivery routes and resolved logistical issues in real-time

Projects

Sakanat – Student Housing Web Platform (Graduation Project)

Built a full-stack web app using React and Node.js for students to find and book housing. The platform includes user registration, booking system, and real-time chat with landlords.

 <https://github.com/Abdulrhman22kh/project.git>

Sanad – Car Services Mobile App (In Progress)

Working on a Flutter-based mobile app that offers taxi booking and other car-related services (e.g. fuel delivery, tires, car wash, battery, oils). Uses OpenStreetMap and AI-assisted development for routing, location tracking, and service coordination.

Languages

Arabic: Native

English: Good speaking, very good writing and listening
