

ABDULRHMAN KHALELIAH

Computer Systems Engineer | IT & Network Operations

Nationality: Palestinian | Phone: +970594674765 | Email: abdulrhmankhalilia1@gmail.com

LinkedIn: www.linkedin.com/in/abdulrhman-khaleliah | Address: Deir Al-Ghusoon, Tulkarm, Palestine

PROFESSIONAL SUMMARY

Results-driven Computer Systems Engineer with hands-on expertise in technical operations, network diagnostics, and critical incident management within high-demand telecom environments. Proven track record in root-cause analysis, FTTH/DSL service degradation troubleshooting, and cross-functional escalation handling. Adept at optimizing support workflows, enforcing service continuity, and bridging technical support with frontend web interfaces.

TECHNICAL EXPERIENCE

JAWWAL — *Technical Support Engineer (Tier 2 / Operations)*

Sep 2024 – Present | Nablus / Tulkarm, Palestine

- Managed end-to-end network diagnostics and connectivity troubleshooting for broadband services (FTTH, DSL, FWA).
- Conducted deep router log analysis, traffic path optimization, latency degradation assessment, and port-forwarding configurations.
- Selected for Tier 2 back-office technical operations due to high problem-solving efficiency and advanced incident handling capability.
- Collaborated with Tier 3 core technical teams to investigate, escalate, and resolve complex infrastructure incidents within strict SLAs.
- Maintained accurate fault tracking, service logs, and internal documentation using specialized enterprise portals (Siebel, Fault Handling Portal, UISP).

CHEETAH LOGISTICS (USA) — *Remote Operations & Fleet Dispatcher*

Dec 2023 – Aug 2024 | Remote

- Coordinated real-time fleet operations, load scheduling, and cross-state driver communications in high-pressure time frames.
- Synchronized operational telemetry and dispatch data to maintain high operational uptime and mitigate delivery delays.

TECHNICAL SKILLS & PLATFORMS

- Network Operations & Diagnostics: FTTH / DSL / FWA Diagnostics, Latency & Ping Analysis, Routing Issues, Port Forwarding, Traffic Optimization, Router Log Analysis, Fault Handling.
- Platforms & Systems: Siebel CRM, UISP, TMM, ISP Tools, Jira, ERP (ERP Next Basics), Fault Handling Portals.
- Frontend Development Basics: HTML5, CSS3, JavaScript (ES6+), React.js Basics, Git/GitHub, Responsive Design.
- Core Competencies: Incident Management, Root Cause Analysis (RCA), SLA Adherence, Technical Writing, Operational Excellence..

EDUCATION

Bachelor of Science in Computer Systems Engineering

Palestine Technical University - Kadoorie (PTUK) | 2019 – 2024

LANGUAGES

Arabic: Native

English: Professional Working Proficiency (Technical Documentation & Communication)
